

Mandatory Electronic Travel Authorization (ETA) Requirement for Travel to Sri Lanka

The Embassy wishes to inform all prospective Omani and other foreign national travellers to Sri Lanka that they are required to obtain a valid **Electronic Travel Authorization (ETA)** online by logging in to www.eta.gov.lk prior to commencing their journey to Sri Lanka, unless they already possess a valid visa or other travel authorization, or fall within a category exempted from the ETA requirement. Visas for Omani travellers are issued free of charge.

Travellers are not required to obtain an ETA if they are already in possession of, or fall within any of the following categories:

- A valid Sri Lankan visa
- Possess an Omani Diplomatic, Official or Service passport

Travellers are requested to obtain an ETA before commencing their journey through the official ETA system: www.eta.gov.lk

Travellers are advised to verify the visa and ETA requirements in advance of their intended date of travel and to ensure that all required travel authorizations have been obtained prior to departure.

Compliance with these requirements will facilitate smooth arrival and immigration clearance in Sri Lanka and help avoid delays or inconvenience arising from non-compliance with the Immigration requirements of Sri Lanka.
